

A FLORIDA CHICKEN FARM

PAIR OF RHODE ISLAND REDS

FOR the last four years I have earned my pin money out of chickens. My hens give me a profit of more than five dollars a head. You think that an enormous yield for chickens? So do I, for I had been raising a few chickens ever since I was a small girl; but I have my account book and so I know just what I spend and what I take in.

My chickens are Rhode Island Reds and bred from the best layers. I have found that there is more in the strain than in the breed of chickens. I carried my chickens with me when I went to Florida, so I know all about them for generations.

Years ago I sold all my other breeds, keeping only the Plymouth Rocks and Rhode Island Reds, because I had proved to my satisfaction that these two breeds gave most eggs in the winter when eggs are scarce and fetch the highest prices. I finally discarded the Plymouth Rocks because I found the Rhode Islanders harder and lighter feeders, or perhaps I should say better foragers.

This characteristic of their being good foragers has had a good deal to do with my large profits in Florida. I never have given my flock meat. They find insects enough for their own meat supply. Since the first season down there I have never given them a bit of meat except the few morsels that are mixed in the table scraps which they have regularly every day.

In Florida I have not raised my own feed but have bought it in small quantities at the regular retail prices. I have been forced to hire all labor done, such as building and repairing the houses, coops and fences. At my home in Massachusetts, being then a comparatively strong woman, I was able to do all such things myself, and yet my chickens never netted me more than \$1.50 a head all the years that I struggled with them.

There in the winter the birds had to be housed and supplied with green and meat food besides their regular rations of grain. In Florida they run in the yards all the year long and get their green food from the small patch of grain which I keep for them at the back of their yard and their own meat by catching insects.

Northern friends who have come to visit me ask if there is not a difference in the prices which I now receive for my chickens and those I sold while in Massachusetts. I am forced to reply that I formerly received somewhat higher prices than are paid in Florida. Most of my eggs and dressed fowls are bought by the largest hotel and though it is run by a northern manager, he expects and gets southern prices. All that the hotel does not take is readily sold to private families, so I never have the expense of shipping.

I do not think any other breed would do as well as my Rhode Island Reds. I let my hens sit on their own eggs. I have found this best in a small flock. A hen must have some time for rest from laying. I never allow a hen to sit more than once in each year, because it is not necessary where all are equally good mothers and where there is a good demand for fresh eggs.

Before the chickens are a month old the mother invariably has begun to lay again. I have four hens that give me 200 eggs each year. They are mother and three daughters. As the mother is now four years old I am looking forward to the time when her yield of eggs will drop off, but even then I think it will pay me to keep her, not only because of the strain, but also because she is an excellent brooder and mother. The ordinary hen I do not think it pays to keep after it is two years old.

I have found that in Florida the houses have to be much more carefully attended to than in Massachusetts because of the extreme difficulty in keeping down vermin. My houses are all of wood built for ventilation more than warmth. For the first four feet the boards are put on solid to prevent the depredations of what the negroes down here call varmints, that is, minks, coons, foxes and stray dogs and cats that may slip through your fence. Above this solid line a space of two inches is allowed between the boards until on a line with the roosts. There again is a solid belt to prevent the chickens from roosting in a draft.

Besides the usual enemies here a chicken raiser has to fight snakes. They slip into the nests and not only swallow the eggs, but often devour young chicks. To fight them a Florida friend told me to get a pig and give her the run of the yard, but to

make sure she had no Berkshire blood in her veins. It seems that in Florida, if nowhere else, the Berkshire hog has a reputation of eating flesh and being especially fond of young poultry.

I succeeded in getting a pig of no particular breed, and since then have had no trouble with snakes; indeed it is seldom that one is seen in the place. That pig and her succession of families have driven away all that they haven't eaten up. Oh, yes, the snakes fight for their lives, striking the pigs repeatedly, but this doesn't appear to interrupt the feast. They are calmly caught and chewed up. They say the snake diet doesn't injure the quality of the pork or affect the taste in the slightest, but I much prefer to sell my pigs to serving them on my own table.

I feed my poultry only once a day; I mean the grown fowls. The chicks are fed just as I did in Massachusetts. This one meal is given at night and they have all they will eat up. In the fall months when the grass seeds are ripe the fowls eat very lightly. At the beginning of my venture here I did give a morning feed, but I soon found that the chickens preferred to go to the grain patch and the orange grove when they first jumped down from their roosts.

If I were stronger and able to do all the work myself I am sure I could easily make eight dollars a head. I have heard of several instances down here in which such a profit is made regularly and without a great amount of work.

MARY FINNY URMSTON.

RELATED BY OLD SETTLER

Just a Little Happening in Which He and a Big She-Bear Had Parts.

Senator Boies Penrose, at a dinner at the Philadelphia club, said of a movement that he opposed:

"It promises incredible things. In fact, it makes me think of Jack Travers of Pike county. Jack is an old man now. He remembers the time when bears were as plentiful on the barren mountains as rattlers still are. Once, when I was fishing at Porter's lake, I asked him if he had ever had any remarkable adventures with bears."

"Well, no, senator," said the old man, as he filled his pipe with cut plug; "I can't say as I ever had much to do with bears hereabouts. Wunst, in my sparkin' days, me and a bear got together—twain't nothin', though. 'It all come about over old Sukey, our cow. She had a bad habit of stayin' out late at night. Then I'd have to go to the woods and fetch her home to the milkin'."

"Well, one night when I wanted to go sparkin', Sukey was late again, and I certainly riz my dander. I started out after her, cussin' a blue streak, and in about an hour I heard her snortin' and puffin' in the thicket. 'I'd missed my gal by that time, and I was riled clear through. I cut a saplin' and went for old Sukey. It was too dark to see, but I knew her snuffle, and I grabbed her by the ear and began to lay on with my stick just about proper."

"The old cow showed fight. She wrestled me around considerable. But I was mad—mad all over—and I half-pushed and half-drag and half-carried her to the barn, and there I tied her up tight and fast, and I milked her in the dark. Afterward I went to bed. 'I certainly did have to laugh, though, when I come down the next mornin'. Gosh darned if I hadn't fetched home and milked a big she-bear.'"

Antiquated.

"Man wants but little here below," quoted the poetic person.

"On the contrary," rejoined the practical party, "the classified columns of the modern newspaper prove conclusively that his wants are numerous."

The beauty of the doughnut is the fact that the hole always agrees with the dyspeptic.

DANGER SIGNALS.

Sick kidneys give unmistakable signals of distress. Too frequent or scanty urinary passages, backache, headache and dizzy spells tell of disordered kidneys. Neglect of these warnings may prove fatal. Begin using Doan's Kidney Pills. They cure sick kidneys.

Mrs. M. A. Gamblin, Russellville, Ark., says: "I was in such bad shape from kidney disease that I gave up hope of my recovery. I could rest neither night or day, the pains in my back nearly driving me frantic. There were decided dropsical symptoms such as swelling of my feet and ankles and my heart palpitated violently. After doctoring without benefit, I began with Doan's Kidney Pills and when I had used two boxes I was as well as ever."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

SIX LIVES WOULD BE MISSING.

Mr. Shooter—Where's my six-shooter?

Mrs. Shooter—What are you going to do?

Mr. Shooter—Kill two-thirds of a cat.

SKIN HUMOR 25 YEARS

"Cuticura did wonders for me. For twenty-five years I suffered agony from a terrible humor, completely covering my head, neck and shoulders, so even to my wife, I became an object of dread. At large expense I consulted the most able doctors far and near. Their treatment was of no avail, nor was that of the Hospital, during six months' efforts. I suffered on and concluded there was no help for this side of the grave. Then I heard of some one who had been cured by Cuticura Remedies and thought that a trial could do no harm. In a surprisingly short time I was completely cured. S. P. Keyes, 147 Congress St., Boston, Mass., Oct. 12, '09."

Face Covered with Pimples

"I congratulate Cuticura upon my speedy recovery from pimples which covered my face. I used Cuticura Soap, Ointment and Resolvent for ten days and my face cleared and I am perfectly well. I had tried doctors for several months but got no results. Wm. J. Sadlier, 1614 Susquehanna Ave., Philadelphia, May 1, 1909."

Awful Prospect.

One day recently a clergyman was performing a marriage ceremony at the parsonage in the presence of his little son. The boy listened very attentively while his father pronounced the couple husband and wife, then going to his mother he said:

"Mamma, when a man marries a woman, must he live with her?"

"Yes, dear," his mother replied.

The boy was thoughtful for a moment and then said:

"Mamma, must papa live with all the women he has married?"

TAKE A FOOT-BATH TO-NIGHT

After dissolving one or two Allen's Foot-Tabs (Antiseptic Tablets for the foot-bath) in the water, it will take out all soreness, smarting and tenderness, remove foot odors and freshen the feet. Allen's Foot-Tabs instantly relieve weariness and sweating or inflamed feet and hot nervousness of the feet at night. Then for comfort throughout the day shake Allen's Foot-Ease the antiseptic powder into your shoes. Sold everywhere 25c. Avoid substitutes. Samples of Allen's Foot-Tabs mailed FREE or our regular size sent by mail for 25c. Address Allen S. Olmsted, LeRoy, N. Y.

Conquests.

"I have been engaged several times," boasted the first summer girl, "to men whose names I did not know."

"That's nothing," retorted the second summer girl. "I engaged myself last season to a stranger who wiggled his proposal from a passing yacht."

RED CROSS BALL BLUE

Should be in every home. Ask your grocer for it. Large 2 oz. package only 5 cents.

Give a man health and a course to steer, and he'll never stop to trouble about whether he's happy or not.—G. Bernard Shaw.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

The prune and the strawberry are nearing the neck-and-neck stage.

Mrs. Winslow's Soothing Syrup. For children teething; softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

A genius is a man who tries to borrow money—and gets it.

CORN PLANTING IS OVER

THAT CANADIAN TRIP SHOULD NOW BE TAKEN.

If you had intended going to Canada for the purpose of purchasing land on which to establish a home and accompanying some land company, whose holdings you proposed to look over or to go up on your own account to select one hundred and sixty acres of land free, you should delay no longer. Corn-planting is over, your wheat crop is well ahead, and you have a few weeks' time before you are required in the fields again. Now make your intended trip. Reports at hand show that the crop prospects in Canada were never better than they are today. The cool weather has not affected the crop, but if anything, it has been a benefit. There has been plenty of moisture and those who have had their land properly prepared look upon this year as likely to be one of the best they have had. A great many are going up this season who expect to pay two or three dollars an acre more than they were asked to pay last year. Others who wish to homestead are prepared to go farther from the line of railway than would have been necessary last year. Still it is worth it. So it will be with you. Next year lands will be higher-priced and homesteads less accessible. There is a wonderful tide of immigration to Central Canada now. It is expected that one hundred and fifty thousand new settlers from the United States will be numbered by the end of the present year, an increase of fifty per cent over last year. In addition to this there will be upwards of one hundred thousand from the old country, which does not include those who may come from the northern countries of the Continent. These all intend to settle upon the land. The reader does not require an answer to the questions, "Why do they do it?" "Why are they going there in such large numbers?" Western Canada is no longer an experiment. The fact that one hundred and fifty million bushels of wheat were raised there last year as against ninety-five millions the year previous, shows that the tiller of the soil in Central Canada is making money and it is safe to say that he is making more money than can be made anywhere else on the Continent in the growing of grains. He gets good prices, he has a sure and a heavy crop, he enjoys splendid railway privileges, and he has also the advantages of schools and churches and such other social life as may be found anywhere. It is difficult to say what district is the best. Some are preferred to others because there are friends already established. The Grand Trunk Pacific, on its way across the Continent, is opening up a splendid tract of land, which is being taken up rapidly. The other railways—the Canadian Pacific and Canadian Northern are extending branch lines into parts inaccessible a couple of years ago. With a perfect network of railways covering a large area of the agricultural lands it is not difficult to secure a location. Any agent of the Canadian Government will be pleased to render you assistance by advice and suggestion, and a good plan is to write or call upon him. The Government has located these agents at convenient points throughout the States, and their offices are well equipped with a full supply of maps and literature.

How we dislike the dentist who spares no pains!

DON'T WAIT TOO LONG

Don't wait until the digestive organs are almost beyond help—don't wait until the bowels have become constipated and don't wait until the liver and kidneys have become weak and inactive; just take Hostetter's Stomach Bitters—at the very first sign of trouble. It will save you lots of suffering because its results are certain. Try it today for Indigestion, Cramps, Diarrhoea, Malaria, Fever and Ague. Be sure to get Hostetter's.

STOCKERS & FEEDERS

Choice quality; reds and roans, white faces or Angus bought on order. Tens of thousands to select from. Satisfaction guaranteed. Correspondence invited. Come and see for yourself.

National Live Stock Com. Co. At either Kansas City, Mo. St. Joseph, Mo. S. Omaha, Neb.

Let your recreation be manly, moderate, reasonable and lawful. The use of recreation is to strengthen your labor, not to sweeten your rest.—Steel.
